

Announcement

Charoen Pokphand Foods Public Company Limited and its subsidiaries in Thailand

No. 029/2018

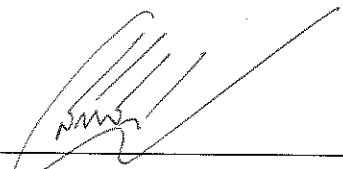

Subject : Environmental Sustainability Goals Amendment

In order to achieve the Company's vision to become a global agro-business and food industry, Charoen Pokphand Foods Public Company Limited established environmental sustainability goals and associated targets covering 4 major aspects: energy consumption, greenhouse gases emissions, water withdrawal, and waste disposal to landfill. All business units within the Company and its subsidiaries in Thailand shall implement this to achieve the targets. The Company had conducted reviews and amended the environmental sustainability targets to a higher standard set as announced in the Company's Announcement No. 121/2016 dated 21st October, 2016 in order to achieve continual improvement. The revised targets are:

- 1) Energy consumption – to reduce 15% energy consumption per production volume (energy intensity) by 2020, compared with the consumption in based year (2015);
- 2) Greenhouse gases (GHG) emissions – to reduce 15% GHG emission per production volume (GHG intensity) by 2020, compared with the emission in based year (2015);
- 3) Water withdrawal – to reduce 25% water withdrawal volume per production volume by 2020, compared with the volume in based year (2015); and
- 4) Waste disposal to landfill – to reduce 30% of generated wastes those sent to be disposed by landfill by year 2020, compared with the amount of such wastes generated in based year (2015).

All management and employees of the Company and its subsidiaries in Thailand shall support, promote and perform to achieve the above targets. The actions also include regular monitoring, data gathering, and annual reporting of operation outcome and performance as compared with the targets.

Announced on 22nd March, 2018.

Announcement

Charoen Pokphand Foods Public Company Limited and its subsidiaries in Thailand

No. 013 /2019

Subject : Environmental Sustainability Goals 2025

To achieve the Company's vision to become a global agro-business and food industry, Charoen Pokphand Foods Public Company Limited firstly established environmental sustainability goals and associated targets covering 4 major aspects: energy consumption, greenhouse gases emissions, water withdrawal, and waste disposal to landfill in 2015. All business units within the Company and its subsidiaries in Thailand has been continuously and effectively implemented this to achieve the targets. In order to operate the business in a more sustainable way, effective and successful, CPF has realized the needs for continuous SHE&En performance improvement. The Company, therefore, set the following environmental sustainability targets in year 2025 as follows.

- 1) Energy consumption – to reduce 15% energy consumption per production volume (energy intensity), compared with the consumption in based year (2015);
- 2) Greenhouse gases (GHG) emissions – to reduce 25% GHG emission per production volume (GHG intensity), compared with the emission in based year (2015);
- 3) Water withdrawal – to reduce 30% water withdrawal volume per production volume, compared with the volume in based year (2015); and
- 4) Waste disposal to landfill – to reduce 35% of generated wastes those sent to be disposed by landfill, compared with the amount of such wastes generated in based year (2015).

All management and employees of the Company and its subsidiaries in Thailand shall support, promote and perform to achieve the above targets. The actions also include regular monitoring, data gathering, and annual reporting of operation outcome and performance as compared with the targets.

Announced on 7 January, 2019.
