CARE X3

WE

INNOVATION

PEOPLE

PLANET

Sustainable Development Principles

with the utmost care for Innovation, People and Planet.

Innovation, People, Planet are the heart of how we do business. We truly respect that the impact of one action ripples, from a single animal we raise to the people in our food

chain right up to the environmental footprints we make on the planet. Sustainability is at the very heart of every decision we make and every action we take.

A HAPPY PLANET is the ultimate goal.

FOOD INNOVATION for healthier and happier lives.

PEOPLE MATTER and everyone's included.

FOOD INNOVATION

for healthier and happier lives.

Smart Farm & Factory

Fully-integrated innovations always.

We know that it's always a challenge to serve our beloved customers better everyday. We are committed to innovation excellence across all Feed-Farm-Food stages. Implementing the highest advanced technology along with smart solution approach of integrated compartment system to deliver the best outcome.

The 5 Freedoms of Animal Welfare

Besides Cage-Free living, CPF has also adopted Genesis standards codes of practice into the company 'Five Freedoms of Animal Welfare' to improve all aspects of production.

- 1 | Freedom from hunger and thirst.**
Always providing a nutrient-balanced feed for each life stage, human-quality drinking water and probiotics to ensure sufficient vitamins & minerals.
- 2 | Freedom from pain and injury or disease.**
Implementing the Smart broiler and compartment system - say goodbye to sickness.
- 3 | Freedom from discomfort.**
Cage free living in an area equivalent to half of a soccer field in controlled temperatures that is ideal for each age range. Our chicks sleep at least 6 hours a day!
- 4 | Freedom to express normal behaviour.**
Provide close-to-nature elements for healthy and happy animals i.e. dust bathing, perching space and balls to play with.
- 5 | Freedom from fear and distress.**
Our modular system and well-trained catchers are a great guarantee for safe and calm chickens.

CPF is the 1st company in the world to have a 'Poultry Welfare-Train the Trainer Program' co-developing with University of Bristol, UK.

This program helps train our employees to become animal welfare specialists.

100% Traceability

& Vertically Integrated Approach

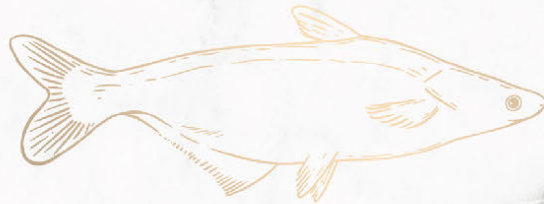

Never compromise when
it comes to
QUALITY and **SAFETY**

The Ultimate Assurance

CPF is a vertically-integrated business with many full integration factories, including a variety of plant sizes and lines to support a high level of manufacturing capacity. All of our products are 100% traceable throughout the whole supply chain for ultimate quality assurance altogether with dedicated food research and product development to provide top quality products with high safety standards for all consumers.

EVERYONE'S INCLUDED!
It starts from within and ripples to the society at large.

We Employees

Passion with Purpose.

Our employees are what makes us special.

We take good care of our people – creating a work environment where all employees can constantly enhance their quality of life, promoting equality and building individual capabilities. This includes fair treatment without discrimination and inconvenience among employees, equal opportunities for all and combating all forms of slavery and human trafficking whether it be child labour or forced labour.

We Consumers

Our consumers take center-stage, always.

End - to - End Quality is real

CPF has excellent quality assurance from FEED to FORK to ensure food quality and safety throughout the food supply chain, ranging from raw material sourcing, feed production, farming, food production, to distribution. We produce high-quality food with the utmost safety that enhances the health and well-being of our consumers everywhere in the world.

Taste Made. Health Matters.

We all love good food that we can enjoy. That's why we make sure that deliciousness is at the core of all our food creations. However, it does not stop there, we pour our heart into food nutrition and hygiene with the highest level of safety to ensure only the best reaches our consumers.

We Communities

When communities blossom, society feels the joy.

We take communities to heart, supporting neighbourhood development by sharing relevant knowledge and necessary capabilities that help create positive impact for society.

CPF focuses on supporting jobs which will circulate income and contribute to good livelihoods and well-being of the communities.

We Partners

We take our partnerships seriously, and it's always a win-win partnership.

From educating the farmers who lovingly grow our natural ingredients to work on continuous improvements with our critical partners of Animal Feed Raw Materials, Food Ingredients, and Packaging groups, we work hand-in-hand with the goal of sustainability.

It's all about growing together as a team because the teams that grow together stay together!

LOVE
MAKES
THE
WORLD
GO
GREEN.

At CPF, it's personal when it comes to the PLANET. We understand that everything we do in this world makes an impact on the environment, whether directly or indirectly.

The goal is clear, to create a balanced development path that leads us to a sustainable future for our planet.

CARE FOR OUR PLANET 

CIRCULAR ECONOMY

CPF is committed to improving and developing all stages of the production under the "Circular Economy" system, minimizing waste while optimizing resource usage – all the while mitigating the global environmental crisis.

LESS WASTE

- Turn waste to value.
- Reduce landfill disposal.

By 2025, we aim to reduce waste disposal to landfill and incineration per production unit by 35% compared to the base year 2015.

LESS CARBON FOOTPRINT

- Reduce GHG emissions through energy efficiency and renewable energy.

By 2025, we aim to reduce GHG emissions (Scope 1 and 2) per production unit by 25% compared to the base year 2015.

LESS WATER FOOTPRINT

- Water management.
- Water recycling.

By 2025, we aim to reduce water withdrawal per production unit by 30% compared to the base year 2015.

LESS PLASTIC FOOTPRINT

- Reduce plastic usage in production, process and packaging.

By 2025, in Thailand operations and by 2030, in overseas operations, 100% of our plastic packaging are reusable or recyclable or upcyclable or compostable.

PROTECTING BIODIVERSITY

CPF recognizes the importance of environment and biodiversity conservation across our business operations. The company also routinely assesses any potential impact we may have caused, to ensure the security of the ecosystem and to protect the planet's invaluable resources.

We engage and work with our employees to join in volunteer networks aiming to preserve and restore the biodiversity within and outside the boundaries of our plants, farms, and at other important strategic areas across the markets we operate in.

We protect biodiversity in mangrove forest and watershed forest in strategic areas and green areas within the boundary of operations covering the areas of more than 10,000 rai.

LEAD-GROW-CARE

is our essence.

The Trusted Partner

For the business of good food.

Strong Global Network & Professional Expertise
CPF is equipped with real global insights and
expertise to provide strong business solutions

for our global partners and all professional
commitments are taken to the highest level.

Lead through inspired innovation excellence.

Leading the quality agenda and pushing innovative boundaries together with a strong global network and more than 33,000 business partners around the world.

You Grow.. We grow

CPF is the key partner to help propel businesses and value chains to the next level. From ideation into success, we drive the development of Sustainable Supply Chain for Mutual Growth.

There's no real success without Care.

Food is only truly good when it makes the world better. We care not only for healthier and more nutritious food for all, but we also care about food security, worry-free trade, environmental management that work in sync while connecting self-sufficient society and balance of nature at the same time. We are determined to extend our efforts onto the global stage for the future that is bright and sustainable.

KEEPING
OUR CHICKS
SAFE IS THE
NO.1 PRIORITY.

Worry-Free & Full Confidence
when it comes to food safety.

CPF is the 1st company in the world with the fully integrated compartment approach for proactive disease prevention for bird flu.

With an elite biosecurity system which is an essential factor in sustainable agricultural development, we combine biosecurity, surveillance controlling disease and traceability system throughout supply chain- all in one.

This well-integrated compartment system ensures that our poultry farm has the world's safest practices for bird flu and other avian disease prevention.

From feed - breed - hatchery - broiler to slaughter, every stage is free from disease.

Pushing the limits of excellence

Commitment to Excellence is not just a promise.. it's a way of life.

At CPF , we strongly commit to delivering only the best when it comes to food. Nothing is too great nor too small when it comes to improving how this is done.

Evident from many best-in-class standards we have achieved year in year out. Notably, CPF is the only company outside the European Union certified with QS standard for poultry.

Always Reaching New Heights.

Always Going Beyond Standards.

And we will never stop challenging ourselves.. We will push the limits.. day in day out.

Fresher than Ever

Eggs from Special Breed Hen

- ✓ No Hormones used throughout hen's life
- ✓ Free from Antibiotics
- ✓ 100% Traceability

The Most High-Tech Layer Hatchery in SEA

CPF has the most technologically advanced layer hatchery in South East Asia. All the hatchery processes are controlled by computer which has high capacity in producing quality and healthy layer birds.

Biosecurity Hi-Tech Farming

Our hens are well-raised in the indoor-controlled temperature farm which protects against insects & extraneous materials. Disinfection procedure is used together with a daily health check-up to ensure the good health of hens. No antibiotics used throughout hen's life.

World Class Standard Factory

Our eggs are cleaned, graded and packed by automatic machines in a factory where international production standards are certified. We guarantee that only quality fresh eggs can leave our factory.

Hygienic Fresh Egg

CP Selection Fresh Eggs "Fresh Can Pinch!"

"Fresher than ever Eggs" from our specially selected breed of hens, our eggs got a particularly strong egg membrane with scientific proof of freshness guaranteed that our eggs can maintain high freshness than former and other breeds. Our hens are fed a special formulated with probiotics which help our hens grow healthy without using any antibiotics and hormone-free, 100% traceable.

You can be ensured at CPF, we serve only quality fresh eggs because we put love and care in every step from the farms to your hands.

- Safe from Antibiotics
- No Growth Hormone Added
- Raised with a special formulated with probiotics

Cheeva Pork

Cheeva Pork that contains Omega 3

UFARM is committed to serving consumers with healthy pork products that contain Omega 3. Our pigs were fed with craftily selected feed including flaxseed, fish oil and natural seaweed. Most importantly, our pork is Beta-agonist free, so it is naturally pink.

It's important to note that our pigs is antibiotics-free throughout raising process, which was certified by NSF, a world-class standard certification. We use probiotics as feed additives to reduce pathogenic bacteria and increase good bacteria. Moreover, our pigs were raised in modern closed-system Bio Security Farm which could prevent epidemics into animal husbandry areas. And Cheeva pork won the first prize for The Best Innovation Award in THAIFEX -Anuga Asia 2020.

Shrimp

CPF has developed own advance breeding program to genetically improve strong, and fast growing shrimps from highly selected bloodstocks to ensure CP Pacific shrimps are disease-free, and outstanding survival rate.

CPF expands own technologies for closed-operation probiotic shrimp farming with high biosecurity technologies, and eco-friendly. Consumer will get the best quality shrimp products from our farm.

Our shrimps have processed at the peak of freshness from the farm to the factory after the roller grading the alive shrimps were off to freezing, which maintains its ultimate freshness, superb color, and outstanding fantastic taste based on GMP, HACCP, and international standards.

ASC-C-01904

Shrimp

Fresh Shrimp

- ✓ **Fresh** directly from farm
- ✓ **Sweet** from nature
- ✓ **Firm** full flavor and firm texture

Specially Selected Species, Fresh Sweet Firm

Specially selected species originated from the Pacific Ocean and raised in the standard integrated system, the shrimps are naturally strong without relying on antibiotics, residue-free, and safe.

CP Pacific shrimps are fresh, sweet, and firm, delivered directly from the farm every day.

Business Concept

Chester's is a pioneering Thai brand fast-food restaurant that prioritizes quality and standards on par with leading international fast-food chains. Our goal is to provide consumers with quality food they can trust. For over 35 years, Chester's has been winning the hearts of customers across the country. Our signature dish is the unique and flavorful 'Grilled Chicken' - carefully prepared with fresh, high-quality ingredients and marinated in a Chester's-style recipe, resulting in a delicious, fragrant taste that is unmatched.

We offer a range of popular rice menus that are beloved by Thai people, including Rice with Grilled Chicken, Rice with Spicy Chester's Chicken, and Crispy Chicken with Fish Sauce on Rice. Additionally, we have introduced trendy menus that cater to the needs of the new generation, such as Boneless Crispy Chicken with Snow Onion or Snow Cheese and Annyeong Wings. Accompanied by Fish, and snacks. With Chester's, customers can enjoy full and delicious meals that are both nutritious and clean. We take our commitment to offering quality food seriously and strive to provide a safe and enjoyable dining experience for our customers every time they visit.

Chester's has successfully collaborated with business partners to expand their branches through a Franchise System, which enables rapid business growth, catering to all consumer groups with small to large models. Our partners can choose a model that aligns with their investment needs. Currently, Chester's boasts over 200 branches in Thailand and four branches in Laos and Myanmar. We continue to explore opportunities to establish new partnerships, expanding our business both domestically and internationally.

At Chester's, we offer a range of store models, from small to large, and provide comprehensive advice and investment guidance at every step. By partnering with us, you can be assured of a successful joint investment with access to our expertise and wealth of experience. Our commitment to your business extends beyond financial investment, as we value long-term partnerships with our clients.

Vision

FARMFACTORY was founded by the vegetable eat lover. We have inspired from American cobb salad style that bring our salad serving in uniqueness looking. All of our ingredients and homemade dressing were used and decorated under the combination of beauty and specific taste on each menu. All of these components made us become Thai Nationality Salad which accepted by Thai and Foreign customers. Beside of our uniqueness salad as our brand signature, we are also serving 6 flavors of freshness cold pressed drinks invented to match with our salad. Moreover, we have other favorite menus which developed from our homemade dressing and selective ingredient such as Avocado Grilled Salmon Salad, Kurobuta Grilled Pork and Kurobuta Pork Chop, Avolcano Ice Cream to serve the best dish and more variety for our customers as well.

Business Concept

Habu is a modern Japanese ramen restaurant that prides itself on offering an authentic taste of Japan. Our meticulous approach to crafting each bowl of ramen starts with our broth, which is made using famous recipes from different cities across Japan. For example, our tonkatsu ramen features pork bone broth that is concentrated in Fukuoka city, while our shoyu ramen uses a concentrated soy sauce from Tokyo.

We are passionate about using only the highest quality raw materials in every step of the ramen-making process, resulting in aromatic, delicious, and mellow soup flavors. We also pay careful attention to the chewiness of our ramen noodles, ensuring that customers get the perfect texture to enjoy the flavors of their ramen like in Japan fully.

In addition to our famous ramen dishes, we offer a variety of rice dishes and appetizers to provide a well-rounded and satisfying dining experience. Whether you're a ramen enthusiast or simply looking for a delicious and authentic Japanese meal, Ramen Habu is the perfect destination.

Our Branches : Fortune Town | Bitec Bangna | Lotus's Rattanathibet
