RATIONALE

TRIS Rating affirms the company rating on CPF (Thailand) PLC (CPFTH) and the ratings on CPFTH's senior unsecured debentures at "A" with "stable" outlook.

The ratings continue to reflect CPFTH's status as a core subsidiary of Charoen Pokphand Foods PLC (CPF, rated "A/Stable"), the largest agribusiness and food conglomerate in Thailand. The ratings also take into consideration the high degree of operational integration CPFTH has with CPF and the support it receives from the group.

At the same time, TRIS Rating assigns a rating of "A" to CPFTH's proposed issues of up to THB15 billion senior unsecured debentures due within 15 years. The proceeds of the new debenture issuances are intended to be used for the following purposes of the company or companies in the CPF Group: (1) general business operations and/or (2) business expansion and/or (3) investment and/or acquisition in shares or assets and/or (4) repayment of debts and/or (5) lending to companies in the CPF Group.

KEY RATING CONSIDERATIONS

Core subsidiary of CPF

CPFTH was founded to operate the domestic livestock operation for CPF. As CPF owns nearly all the interest in CPFTH, it has full control of CPFTH's business direction and operations. CPF helps CPFTH secure raw materials and broadens the reach of CPFTH's distribution channels through CPF's domestic and overseas distribution networks. CPF also demonstrated its strong financial support in capital injections or loans to CPFTH on a timely basis.

CPFTH's operating revenue has accounted for 26%-27% of CPF's total operating revenue during the past three years. CPFTH's EBITDA has been reliant on domestic livestock prices that are highly volatile, accounting for 8%-32% of CPF's EBITDA.

Improving operating performance

Thanks to a substantial drop in feed costs and a gradual recovery in swine prices, CPFTH's operating performance has sharply rebounded. EBITDA margin climbed to 8.2% in 2024, up from 2% in 2023. The EBITDA soared to THB12.9 billion in 2024, compared to THB3.2 billion in the previous year.

Looking forward, we expect the company to continue improving its operating results through an enhanced product mix, efficiency improvements, and synergies and support from CPF and its associated companies. Also, we expect further price recovery in 2025, particularly pork meat, following supply corrections and market rebalancing.

Lower leverage following improved operating results

CPFTH's financial leverage lowered substantially from that in 2023, driven by a sharp rebound in operating performance and a reduction in capital expenditures. As of December 2024, CPFTH's net debt stood at THB147.4 billion. The debt to EBITDA ratio substantially fell to 11.5 times in 2024 from 43 times in the previous year. Additionally, the ratio of funds from operations (FFO) to total debt improved to 5.3% in 2024, a recovery from the negative figures recorded in 2023.

Tight but manageable liquidity expected

As of December 2024, CPFTH's interest-bearing debt amounted to THB140.4 billion, with debentures and long-term loans constituting over 70% of the total. The remaining debt comprised short-term loans to support working capital needs. We assess CPFTH's liquidity as manageable over the next 12 months, with significant cash outflows including THB19 billion in debenture and THB2 billion in long-term debt repayments due in 2025 and approximately THB9 billion in annual capital expenditures. A large portion of the short-term debt maturing within the year is expected to be refinanced. At the end of 2024, CPFTH's liquidity buffer included THB1.3 billion in cash. The company's refinancing risk is mitigated by its strong access to capital markets and the available credit facilities from commercial banks.

The financial covenant on CPFTH's debenture obligations requires the company's net interest-bearing debt to equity ratio to stay below 2.0 times. As of December 2024, the ratio was 1.76 times. We expect the company to comply with the covenant over the next 12 to 18 months.

Debt structure

As of December 2024, CPFTH had consolidated debt of THB140.4 billion, excluding lease liabilities. Of this amount, approximately THB5 billion, categorized as trust receipt, was considered as priority debt. The priority debt to total debt ratio was around 3%.

RATING OUTLOOK

The "stable" outlook mirrors the outlook on CPF.

RATING SENSITIVITIES

As a core subsidiary of CPF, the ratings on CPFTH are tied to the ratings on CPF. Any change in the ratings on CPF, or CPFTH's group status, will affect the ratings on CPFTH accordingly.

COMPANY OVERVIEW

CPFTH is an almost wholly-owned (99.99%) subsidiary of CPF. Established in February 2012, the company was founded through the amalgamation of 10 subsidiaries of CPF.

The company is a fully integrated producer of livestock products. CPFTH's business is divided into three segments: feed, farm, and food. In 2024, the farm segment was the largest at 65% of CPFTH's total revenue, followed by animal feed (20%), and food products (15%).
