CPF invests 820 million in its Russian pig farm to accelerate production efficiency and strengthen supply capabilities.

“CPF” has invested in land and a pig farm in Russia, “Novomyasovo,” through its subsidiary CPFO, with a total investment of over 2,050 million rubles (approximately THB 820 million). The investment aims to enhance production efficiency and strengthen the supply of swine, support upstream business integration, and create opportunities for long-term business expansion.

Mrs. Kobboon Srichai, Company Secretary of Charoen Pokphand Foods Public Company Limited (CPF), informed the Stock Exchange of Thailand (SET) that Charoen Pokphand Foods (Overseas) LLC. (“CPFO”), a subsidiary in which CPF holds a 99.99% stake, has entered into an agreement to acquire the entire investment in Novomyasovo LLC. (“Novomyasovo”).

In April 2026, CPFO acquired a 100% equity interest in Novomyasovo from the seller at a purchase price of RUB 2,050 million (approximately THB 820 million). Upon completion of the transaction, Novomyasovo will become a subsidiary of CPF.

Novomyasovo is a company incorporated in the Russian Federation and owns a swine farm and land located in the Novgorodskiy district of Russia. The company was established on 15 December 2025 as a result of the seller’s internal restructuring through a spin-off, with the purpose of transferring the assets intended for sale to Novomyasovo.

Following the aforementioned restructuring, Novomyasovo holds the following assets:

- Approximately 1,200 hectares (7,550 rai) of agricultural land
- A Fattening swine farm with a capacity of 42,000 head

A breeding farm with 5,000 sows and nursery facilities with a capacity of 30,000 pigs

The breeding farm and nursery facilities are currently under lease agreements with transferred leasehold rights. Novomyasovo is expected to obtain ownership of these assets upon completion of the lease payments in June 2027.

The acquisition of Novomyasovo will be beneficial to the CPFO, as the Company is currently leasing finishing pig farms from Novomyasovo to operate its business. Therefore, this acquisition will enhance the stability of the CPFO Group's operations, reduce risks associated with potential non-renewal of lease agreements by the owner, and enable more effective asset management in alignment with its business plans.

In addition, ownership of the breeding farm and nursery facilities will strengthen the security of swine supply, support upstream integration, and improve production efficiency. Furthermore, ownership of large-scale agricultural land will provide opportunities for long-term business expansion, thereby reinforcing the strength of the CPFO Group's swine business in the Russian Federation.

VietJet serves a special onboard meal featuring "organic Cheeva pork boat noodles"

VietJet Thailand and CPF elevate Thai street food to a special inflight dining experience, launching the "organic Cheeva pork boat noodles" menu, now available onboard.

Featuring soft and springy noodles in a rich, aromatic broth, prepared with high-quality ingredients such as organic pork, which is rich in Omega-3.

VietJet Thailand, in collaboration with Charoen Pokphand Foods Public Company Limited (CPF), is elevating the inflight dining experience with the launch of a signature menu, "Cheeva Thai Boat Noodle." The dish features soft and springy noodles in a rich, aromatic broth, complemented by high-quality Cheeva pork, which is rich in Omega-3 and free from growth promotants and antibiotics. This menu offers passengers a delicious and healthier meal option onboard. Passengers can now enjoy the authentic taste of Thai boat noodles on all VietJet Thailand flights starting today, priced at THB 180.

Mrs. Suphara Sriboon, Head of Domestic Trading Business at CPF, stated that CPF is committed to developing high-quality food products that combine both taste and nutritional value. Leveraging its expertise in food innovation, the company creates menus that meet the needs of business partners across various sectors, including airlines, hotels, and restaurants of all sizes. This ensures the delivery of products that offer excellent taste, nutritional benefits, and the flexibility to be prepared under diverse conditions.

This collaboration with VietJet Thailand marks another significant step in showcasing CPF's high-quality ingredients through the inflight dining experience, allowing passengers to enjoy one of Thailand's most popular dishes while traveling.

CPF wins two global awards at the Global CSR & ESG Summit & Awards 2026

Source : <https://www.thansettakij.com/social-biz/657838> , 30th April 2026

Charoen Pokphand Foods Public Company Limited (CPF) has received two Gold Awards:

- Best Environmental Excellence Award
- Best Community Programme Award

These accolades reflect the Company's commitment to driving its organization toward Net Zero 2050 in alignment with the Science Based Targets initiative (SBTi), while advancing operations through the "Sustainovation" approach—integrating technology and innovation to deliver tangible sustainability outcomes.

Environmental Dimension

CPF continues to reduce greenhouse gas emissions across its value chain, from sourcing deforestation-free raw materials and increasing the use of renewable energy, to developing low-carbon products and packaging.

Social Dimension

The "Agricultural Village Project" in Chachoengsao, Kamphaeng Phet, and Chonburi provinces supports more than 140 farming households by creating jobs, generating income, and fostering self-reliant community food systems.

The "Egg-Laying Chicken for School Lunch Project" has enhanced the nutrition of over 230,000 Thai students across more than 1,000 schools nationwide.

The awards were received by CPF executives, including Mr. Somporn Jermpong, Head of the Swine Business, and Mr. Somkid Wannalukhee, Head of the Layer Business, who jointly accepted the Best Community Programme Award. Mrs. Kobboon Srichai, Head of Corporate Affairs and Investor Relations, received the Best Environmental Excellence Award.

This achievement reinforces CPF's position as a leader in the food industry, advancing business growth alongside sustainable social and environmental development.
